--Do we need or want to update the community on Canterbury Community Power?
--If so, do we want to:
 (1) Suggest Select Board consider “Granite Plus” (33% renewable power) for CCP default energy rate at next 6-month rate change in August?
 (2) Keep focus on “community benefit” rate savings: CCP “Granite Basic” default customers enjoy lowest energy rates in NH at 8.1 cents/kWh, and individual ratepayers can always “opt up” to “Granite Plus” at 8.4 cents/kWh?
 (3) Explain additional potential “community benefits” of reserve funds and potential help with community renewable energy generation projects?
(see Spreadsheet at Attachment 3 to cover email)
 (4) Provide an update on the status of litigation/negotiations re credit for surplus energy sales back to the grid by customer-generators with PV solar?
--And how might we want to do it?
 (1) Asking for 3 minutes at microphone at end of Town Meeting?
 (2) A 1-page or quarter-page hand-out to leave on chairs?
 (3) Hosting a table at the back manned by CCPC members to answer questions?
- 8:00 Other new business?
--Next meeting: Wednesday, March 13?
--Adjourn
